

"Helping YOU untangle the WEB"

Remember When...

We let our fingers do the walking?
Now, our fingers do the clicking!

YOUR clients and customers want to find YOU when it's convenient for THEM.
They could be searching the internet...for your website.

Basic Website Package \$525 + HST

Customers and potential customers are looking for you online and you need to be there, your business needs a web presence in the same way that you need a telephone number. A basic website is affordable and with the help of Draper Web Design and Graphic Arts it is easy to obtain.

A one-page website will show potential customers enough about you to catch their attention. We will design a custom look for your website, using your logo and all of your branding information. Your website will fit seamlessly into your marketing plan, something that a generic template website or a do-it-yourself effort just can't do.

Package includes:

- **One-page Custom Design Concept** for the website using your logo and branding information. No cookie-cutter, clipart or templates. (You must supply logo and branding information).
- **Domain Registration** and set-up of a .com or .ca (One year registration). Annual fees will apply for ongoing domain registration.
- **One-year website hosting** and up to 5 email addresses – Hosting provided by YRHost. Annual fees will apply for ongoing website hosting and emails.
- Upload of your content onto your website.

Not included but available at additional cost:

Don't have a logo? We can create one for you for only \$200. Your custom logo can then be used on all of your marketing material, not just your website.

Having problems writing the content for your website? We will help you identify what should be there, and write it for you, for as little as \$120.

Contact us today to start the process. It's easier than you think!
